Poker Chip

Poker Chip is a small, round, flat object used in the game of poker. It is typically made of a composite material, such as clay or plastic, and is often decorated with a design or pattern. The chips are used to represent money in the game, with each chip having a specific value. The design on the chip can vary, but it often features a star or a similar symbol. The chips are usually made of a material that is durable and resistant to wear and tear.

Coasters are made of high-quality, durable material. They are 43 mm in diameter and feature a nautical theme. The coasters are available in two colors: white and blue. The white coasters have a gold compass rose in the center and a blue and white striped border with gold dots. The blue coasters have a white compass rose in the center, surrounded by gold stars and a white border with gold dots.
